

Wheatgerm 250ml

PROD19579

£10.50
£12.60 inc VAT

Product Description:

Triticum vulgare

Extraction: The oil is extracted from the germ of the wheat; the main part of the wheat is used to make white flour.

- Contains Vitamins A, B1, B2, B3, B6, and F with high levels of Vitamin E. Often used as a natural anti-oxidant.
- Has quite a strong odour.
- A good oil for revitalising dry skin and believed to help relieve symptoms of dermatitis; helpful for tired muscles making it a good base for post-sport massage. useful addition to products, such as creams for mature or damaged skin.
